1. Introdução e Diretrizes Técnicas

Este documento estabelece o conteúdo integral e canônico do módulo `referencia/semantica.py`, projetado para integração direta à raiz do ecossistema computacional da **A1ELOS Global Numerology**. O módulo consolida formalmente as quatro estruturas que compõem a base ontológica e semântica do sistema: `ENERGIA_SEMANTICA` (definição da vibração dos números cardeais de **1 a 9**), `VIDAS_SEMANTICA` (narrativa arquetípica e propósito evolutivo das vidas **1 a 9**), `FORMAS_CORES_SEMANTICA` (geometria sagrada, espectro cromático e síntese afirmativa) e `LP_DESC_MASTER` (atributos dos números-mestre **11, 22 e 33**). Todas as estruturas encontram-se rigorosamente traduzidas e adaptadas culturalmente para **14 idiomas**: Português (pt), Inglês (en), Espanhol (es), Italiano (it), Francês (fr), Alemão (de), Japonês (ja), Mandarim (zh), Russo (ru), Indonésio (id), Turco (tr), Vietnamita (vi), Hebraico (he) e Árabe (ar).

REGRA DE ENGENHARIA E ISOLAMENTO DE CAMADAS: As estruturas disponibilizadas neste documento operam *exclusivamente* na camada textual e descritiva dos relatórios e laudos em PDF entregues ao cliente final. Em nenhuma circunstância estas definições semânticas devem interferir ou substituir os algoritmos matemáticos de **compatibilidade** (como nos cálculos entre casais, sociedades ou núcleos familiares), os quais permanecem estritamente ancorados na matriz de cálculo da Tabela de Monique Cissay (documentada no repositório técnico `docs/referencias.md`). O português atua como texto-fonte primordial e mecanismo de retroalimentação (*fallback*) inviolável para qualquer requisição com chaves ausentes ou idiomas não identificados.

> ***Nota de Implementação:*** *Caso o diretório `referencia/` não exista na raiz de execução, crie-o. Salve o conteúdo consolidado das seções a seguir como `referencia/semantica.py`. No arquivo `main.py`, adicione a importação protegida via `try/except` demonstrada ao término deste memorial, garantindo que o ciclo de inicialização do servidor Uvicorn permaneça estável.*
